EnerGenie Programmable surge protector

EG-PMS

YOUR SWITCH IS MY COMMAND

- EG-PMS is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via your PC, by timer schedule, or by programmable special events (eg: switch on my scanner whenever I start Photoshop, or have my printer switched on only when I really print)
- Stay in control of all your electrical devices at home or in the office
- Program four sockets individually via your PC or laptop
- Protect your valuable equipment
- An advanced standby-killer for computer peripherals

Features

- Switch individual sockets on/off manually from your computer

- Switch individual sockets on/off by a programmable timer schedule
- Switch individual sockets on/off whenever a certain software event occurs (e.g. Windows/other software start-up/shutdown, print spooler starting and finishing its job, etc)

- Timers stays active even when the managing PC is turned off

- Child protected sockets
- Mounting holes
