EnerGenie Programmable surge protector with GSM interface

EG-SMS

YOUR SWITCH IS MY COMMAND

- EG-SMS is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via SMS messages, by timer schedule, or by programmable sensors events (eg: switch sockets on/off when temperature is outside its selected range, a door is open or AC voltage is off). You can manage your EG-SMS via SMS messages from a GSM smartphone from all over the world.
- Stay in control of all your electrical devices at home or in the office
- Program four sockets individually via SMS messages from your smarphone
- Switch electric devices on or off with your smartphone, wherever you are
- Protect your valuable equipment
- Perfect solution for security systems , sauna , aquariums, pet habitats, etc.
- Easy control via the practical smartphone app

Features

- Switch individual sockets on/off manually from your GSM smartphone
- Switch individual sockets on/off by a programmable timer schedule
- Get sensors info: temperature and relay contacts actions (closed and open)
- Switch individual sockets on/off by events from the sensors: if temperature is out its selected range, if door is open or if AC voltage is off
- Because of the GSM interface, EG-SMS can be accessed from any smartphone that is able to send SMS messages
- 64-bit password protected access
