

EnerGenie Programmable surge protector with WLAN interface

EG-PMS2-WLAN

YOUR SWITCH IS MY COMMAND

- EG-PMS2-WLAN is an advanced surge protector with power management features. It is possible to individually switch 4 sockets on or off manually via your local WiFi network or Internet, by timer schedule, or by programmable special events (eg: switch on my scanner whenever I start Photoshop, or have my printer switched on only when I really print). With your free personal user account on EnerGenie.com you can manage your EG-PMS2-WLAN via Internet from all over the world, even with your smartphone.
- Stay in control of all your electrical devices at home or in the office
- Program four sockets individually via WLAN or Internet
- Switch electric devices on or off with your smartphone, wherever you are
- Protect your valuable equipment
- An advanced standby-killer for computer peripherals
- Perfect solution for security systems , sauna , aquariums, pet habitats, etc.

Features

- Switch individual sockets on/off manually from your computer
- Switch individual sockets on/off by a programmable timer schedule
- Switch individual sockets on/off whenever a certain software event occurs (e.g. Windows/other software start-up/shutdown, print spooler starting and finishing its job, etc)
- Because of the WLAN interface and the built-in web-server, EG-PMS2-WLAN can be accessed from any computer within your wireless local network (via an Internet browser or Power manager software)
