

Premium high efficiency LED lamp, 8 W, E27 socket, 2700 K

EG-LED0827-01

- Revolutionary thermal design
- Improved light radiation angle up to 330°
- Ultra light weight design
- Super energy efficient up to 135 lumens per watt
- Guaranteed longer lifetime
- Best quality light!
- EnerGenie LED bulb — the world's best! We used a unique 3D placement of the LED's in our EnerGenie LED bulb as opposed to the traditional flat surface 2D placement of LED's in most other bulbs. This results in a far better light distribution area of 330°, while most other LED bulbs barely provide 140°–160° light angles. The EnerGenie LED bulb produces an awesome 135 lumens per watt. This is around 40 % better than the traditional LED bulbs!
- Guaranteed longer lifetime!
- In addition to 2 year warranty: 3 years of free repair service, if required

Īpašības

- 8 W high efficiency LED bulb, 1080 lm
- True replacement for 70 W incandescent light bulb
- Innovative heat-pipe cooling technology for a longer lifetime
- Very low energy consumption, saving at least 88% energy
- High color rendering (CRI 85) for vivid colors
- No warm-up time, instant 100% light
- E27 cap can be easily fitted to replace ordinary light bulbs
- Long service life of 50.000 hours

Specifikācija

Power consumption: 8 W (up to 110 mA)
CRI: > 80 (84 86)
Luminous flux: up to 1080 lm
CCT (correlated color temperature): 2700 °K (warm white)
Lifetime span: ca. 50.000 Hours
Input voltage: 85-260 V AC at 50 60 Hz
Power factor: 0.876
Energy Efficiency Class: A
Radiation angle: 330 °
Switching cycles: at least 300.000
Net weight: 80 g
Dimensions: Ø50 x 120 mm
Operating temperature: -20 ... 40 °C
Dimmable: no
Shadow in luminary: almost zero
UV and NIV radiation: free
LEDs: 28 pcs
