EG-LED1227-01

- Revolutionary thermal design
- Improved light radiation angle up to 330°
- Ultra light weight design
- Super energy efficient up to 135 lumens per watt
- Guaranteed longer lifetime
- Best quality light!
- EnerGenie LED bulb the world's best! We used a unique 3D placement of the LED's in our EnerGenie LED bulb as opposed to the traditional flat surface 2D placement of LED's in most other bulbs. This results in a far better light distribution area of 330°, while most other LED bulbs barely provide 140°–160° light angles. The EnerGenie LED bulb produces an awesome 135 lumens per watt. This is around 40 % better than the traditional LED bulbs!
- Guaranteed longer lifetime!
- In addition to 2 year warranty: 3 years of free repair service, if required
